

emWave2[®] Thumb Sensor

Standalone Handheld Device

It is a portable and convenient way to reduce stress, balance emotions, and increase performance. The emWave2[®] helps you transform feelings of anger, anxiety or frustration into more peace, ease and clarity.

Our heart rhythm patterns are the best reflection of our inner state. We can use the emWave2[®] to see what's going on inside of us and learn how to shift into a state of balance, self-reliance and renewing feelings, such as appreciation and compassion.

How To Use emWave2[®]

1. Press start button.
2. Gently place finger on sensor.
3. Wait for calibration and follow breath pacer.
4. See light change from red to blue to green as you achieve coherence using the Quick Coherence-technique.
5. Increase challenge levels as you build your coherence.
